

TULIP - M

Tulip-S, medium version of Tulip Series, is very suitable for both off-grid and on-grid application with its grid-tie inverter options. Tulip-S is also preferred for hybrid applications and energy storage systems.

General Information

Axis	Vertical
Rotor Height	2.0m
Rotor Diameter	3.2m
Blade Profile	NACA 4418
Generator	Brushless PMG
Control Unit	Schneider Electric

Performance

Rated Power	1000 W
Output Voltage	12/24/48VDC for Off-Grid 220VAC for On-Grid
Cut - In Wind Speed	2.7 m/s
Cut - Out Wind Speed	20 m/s
Rater Rotational Speed	100 RPM
Operational Temperature	-20 C to +80 C
